## PROFESSIONAL SUMMARY

(B.Tech CSE - Cybersecurity, 2026, CGPA 8.25) skilled in Node.js, Java, REST APIs, SQL. Experienced building JWT-authenticated, role-based multi-tenant systems; seeking backend/full-stack roles starting August 2026.

## TECHNICAL SKILLS

Languages: JavaScript, Node.js, Java, SQL

Backend & Cloud: REST API Design, Express.js, JWT Authentication, RBAC, Database Design (MySQL), OOP

Concepts: SDLC, Agile, Git/GitHub

Soft Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration, Time Management

## EXPERIENCE

### Backend Developer Intern — AyLark Technologies

Dec 2025 – June 2026

Tech Stack: React.js, Node.js, REST APIs, Database Design, Git, GitHub

- Developed RESTful backend APIs using Node.js and Express.js for a multi-tenant Salon Management SaaS platform.
- Designed and optimized relational database schemas for authentication, users and business operations.
- Implemented JWT-based authentication and role-based authorization (RBAC) for secure access control.
- Collaborated with frontend developers to integrate backend APIs and improve application workflows.
- Participated in backend architecture discussions, API design, debugging, and feature development using Git.

## PROJECTS

### LeaveEase – Leave Management System

[github.com/Sanskriti555](https://github.com/Sanskriti555)

Tech Stack: React.js, Node.js, Express.js, MySQL, JWT, REST APIs

- Developed a full-stack Leave Management System with authentication and role-based access control for managers and employees.
- Implemented JWT-based authentication, secure password handling using bcrypt, and email-based password recovery.
- Built features for leave application, approval/rejection, leave category management, and leave quota tracking.
- Designed dashboards for managers and employees to manage leave requests, track quotas, leave history, and filter leave records.
- Integrated MySQL database and REST APIs for user management, leave records, and quota handling.

## EDUCATION

### Shri Ramdeobaba College of Engineering and Management

2026

B.Tech, Computer Science and Engineering (Cyber Security) — CGPA: 8.25

### St. Xavier's High School

2022

CBSE (12th) — Percentage: 67.4%

### Modern School

2020

CBSE (10th) — Percentage: 88.6%

## CERTIFICATIONS

- AWS Cloud Technical Essentials — Coursera
- Networking Essentials — Cisco Netacad
- Certified Cybersecurity Entry-level Technician — Palo Alto Networks

## ROLES & RESPONSIBILITIES

- Open Source Contributor – Contributed to community-driven repositories, improving features and supporting collaborative development.
- Team Lead – Dance Club, RCOEM
- Branch Cup Lead – Cyber Security Council
